PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data analysis, data cleaning, and data visualization using Advanced Excel, SQL, and Power BI. Experienced in analyzing datasets, developing interactive dashboards, and generating data-driven insights through academic projects. Skilled in problem-solving and interpreting data to support data-driven decision-making.

EDUCATION

Bachelor of Computer Science, BAMU University

June 2023 - April 2026

Percentage : 82.4

SKILLS

Technical Skills : Advanced Excel | SQL | Power BI | Python | Data Analysis | Data Visualization

Soft Skills : Communication | Teamwork | Time Management

PROJECTS

Netflix Data Analysis Interactive Dashboard — Excel :

July 2026

- Cleaned and analyzed the Netflix dataset using Advanced Excel, Pivot Tables, Pivot Charts, Slicers, and formulas to identify content trends.
- Analyzed 1,499 titles, including 992 movies and 507 TV shows, to identify content distribution and top contributing countries.

Sales Data Analysis — MySQL :

August 2026

- Performed SQL-based analysis on customer, product, and order data using filtering, aggregate functions, GROUP BY, HAVING, and JOINS.
- Identified top customers, products, category-wise sales, and order patterns to generate data-driven business insights.

INTERNSHIP

Vectrium Ventures – Web Development Intern

Nov 10 - Dec 10, 2025

- Developed responsive and user-friendly web pages using HTML and CSS, ensuring consistent layouts across screen sizes.
- Applied responsive design, UI styling, and layout techniques to improve website usability and presentation.

AWARDS AND CERTIFICATIONS

- **Power BI** — For Business Applications, Microsoft
- **Data Analytics** — IBM SkillsBuild
- **Data Analytics Job Simulation** — Deloitte
